

Veteran's Health Graphic Medicine Book Club Guide:

At War with Yourself by Samuel C. Williams

From the publisher..."In this illustrated conversation between Samuel C. Williams and his friend, Matt, they talk candidly about Matt's struggles with post-traumatic stress disorder. From scoping out quick exits in coffee shops to re-experiencing his traumatic events, Matt describes his unique experiences and how he has learnt to cope."

And

When I Returned from the Center for Cartoon Studies

When I Returned is a comics anthology containing six unique stories from veterans at the White River Junction VA Medical Center in Vermont. Illustrated by a number of cartoonists from The Center for Cartoon Studies, these stories help show the depth and variety of the "veteran experience".

Why a Graphic Novel?

- Research suggests that we are better at understanding and absorbing information presented in visual forms, such as comics.
- Stories are more engaging than factual information alone. How much easier is it to remember and empathize with something a friend experienced versus hard statistics alone?
- Coined by Ian Williams, a physician in the UK, Graphic Medicine "is the intersection of the medium of comics and the discourse of healthcare."
 - Graphic medicine, then, combines visual storytelling and medicine, creating a unique opportunity for readers to experience and learn about healthcare experiences through comics.

Questions for Discussion

- 1. These two books introduced us to a number of radically different veteran's perspectives. Which of these perspectives did you most identify with? Which was the hardest for you to relate to? Why?
- 2. Did you appreciate the visual aspects of this book? Do you think the format of a graphic novel is more or less effective for a memoir than for a fictional account? How is it different than a memoir written in prose?
- 3. Does the book remind you of an aspect of your own life? A particular event? A person like a friend, family member, co-worker, etc.?
- 4. Can you point to specific passages/panels that struck you personally? Why?
- 5. Did At War With Yourself change your perspective on PTSD? If so, how? If not, why not?
- 6. Most people have strong impressions of veterans' lives from proud patriotism to disheartening homelessness. Did these stories broaden your impressions? How?
- 7. Reentry into civilian life can often be the most difficult part of a veteran's life. After reading these experiences, how do you think you would handle the stress of such a transition?
- 8. PTSD is a clear health issue, but other stories in *When I Returned* may not be so clear-cut. How does the whole picture of a veteran's life figure into their health? How might their experiences impact them differently than you or I? Is there a way for a community to get involved to help?
- 9. Have you read other memoirs or stories about veteran's health? How do these comics compare?
- 10. Matt is a veteran from the United Kingdom, rather than the United States. Did you notice any differences in his experience compared to the US-based stories in *When I Returned*?
- 11. Would you share either of these books with people in your life? If you could only choose one, which one? Why?

Remember: These are just suggested questions and there could be many, many more. Don't feel tethered to these – let the conversation flow naturally and use these questions as starting points when conversation stalls.
